

ELEMENT

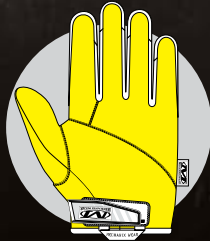

TACTICAL SPECIALTY HAND PROTECTION

Brisk temperatures can hinder grip strength as the body fights to preserve warmth in cold conditions. The Element is a lightweight fleece-lined precision duty glove designed to keep your hands insulated from the elements. A water-resistant Softshell keeps the back of your hands dry and prevents the wind from sneaking in while you work. The palm features durable synthetic leather infused with touchscreen capable technology so you can navigate your devices without removing your gloves in the cold.

WATER-RESISTANT

Softshell water-resistant and wind-resistant stretch fabric protect against the elements.

TOUCHSCREEN CAPABLE

Durable synthetic leather palm infused with touchscreen capable technology.
