The Specter Modular Weapon Systems is the first truly flexible modular system for Airsoft rifles. The Yankee Hill Machine Co., Inc. (YHM) licensed system is made and distributed by ActionSportGames®, Denmark.

The Specter Modular Weapon Systems gives Airsoft players the flexibility to customize their AEG's to fit any type of game – be it CQB, Speedball or long-range sniper games. By simply changing the upper receiver, players can customize their AEG's enabling them to play with their preferred type of AEG in every game – taking the game to a whole new level.
